Sustain: from the past, for the future

25 September 2026 - 10 January 2027

We're facing a nature crisis, but there's hope. This exhibition explores how people in the past lived more sustainably, using less stuff, less energy, and making space for nature. These examples from history can inspire us to make positive changes today. The displays include everyday objects that were repaired, reused, and made from sustainable materials, as well as artworks showing the transformation of our landscape. Hear from scientists, environmentalists and local changemakers, and find out how we, as individuals and communities, can make a difference.

PRINT GIANTS

PRINT&DESIGN SPECIALISTS
